

# Make your planetarium dreams come true... with our lease program!

You CAN afford a Digitalium® digital planetarium system—even if you don't have the funds on hand or the resources to search for grants.

Digitalis offers a flexible lease to own program that enables you to spread your payments out over multiple months (US customers only, subject to credit approval).

Leasing allows you to keep your cash on hand; there's little to no up front expense and a \$1.00 buy out. Leasing will even offer you some tax benefits.

## Sample lease:

### Digitalium Iota Professional & 5m Digitalis Dome

World's  
Smallest  
Turn-key  
Planetarium  
System!

Number of Months	Monthly Payment
36	\$1,237
60	\$808

Other models and periods also available.
